

Rice Lake Ice In/Ice Out charts

This information has been captured by both long-time residents Jim & Carol Malone and Tom Dechmann. Most of the Ice In dates were estimated (but not captured) to be no later than the end of November, with exceptions being 2001 (12/20) and 2015 (12/18 being the 2nd "ice in" after it was initially in on 11/22, then out again)). In 2016-2017, the ice went out 2 times (only the 2nd instance is shown below).

If anyone else has some more data to fill in the missing gaps, please forward to our website e-mail address at ricelakeassoc@comcast.net.
